“**WP7 - Users’ workshops**” (15 min)

Meeting #4 – July 3 to 5 2012

ENDORSE (Energy DOWnstReam SErvices)

Providing energy components for GMES

Meeting #4 ENDORSE

1_ already held events

- I transferred the 3 posters presented in Biomass EU BC&E 2012 presented in Milano from the workshop to the dissemination section
- I will add the information given by Markus Tum concerning the biomass workshop

2_ Coming events

- Batimat, 7-12 Nov. 2012, Paris => service D1
- Equipbaie, 13-16 Nov. 2012, Paris => service D1
- “?”, Sept. 2012, Gratz in Austria => service S2
- InterSolar 2013
- SolarExpo 2013
- EWEC 2013 => service W1, probably a booth (WP9) and will attempt to organize a Workshop

3_ documents

- Thanks to the different discussions, the evaluation questionnaire appears to be not suitable for booth interactions.
- Template to fill in order to feed WP8 => not obvious who is going to fill this document ! 3E propose to distribute the document directly to attendees... We definitely need to study the way to gather information concerning workshops in order to have elements to build the WP7 report.

Conclusion

Thank you!
